ABOUT ME

I am a passionate software developer with a strong foundation in programming and application development. Extensive knowledge of programming languages such as Dart, PHP, CSS, and JavaScript, and I am proficient in utilizing various frameworks and development tools.

WORK EXPERIENCE

- **PT. SAI Trans Indonesia , Jakarta**
 - **Fullstack Developer | Agt 2023 - Now**
 - Lead the design, development, and maintenance of internal applications, including the Logistic Management System (LMS), optimizing operational efficiency.
 - Developed and managed mobile applications (iOS & Android) for logistics operations using Laravel, Vue, Node.js, and Flutter, enhancing functionality and user engagement.
 - I collaborated with cross-functional teams to ensure a reliable and scalable application infrastructure, resulting in a 30% reduction in operational delays.
- **CV. Mcflyon Teknologi Indonesia, Surabaya**
 - **Junior Software Developer | Agt 2022 - Agt 2023**
 - Designed and maintained responsive websites and applications, working with technologies such as HTML, CSS, and JavaScript.
 - Developed front-end and back-end functionalities using frameworks like Node, React, Vue, Flutter, and Laravel, achieving faster and more efficient project deployment.
 - Enhanced application responsiveness and user interface, ensuring a positive and seamless user experience.
 - **Web Developer (Intern) | Jan 2021 - Jun 2021**
 - Assisted in the development and maintenance of applications to meet user preferences, utilizing Laravel and Vue.js.
 - Supported the implementation of user-centered features, improving overall application satisfaction and usability for clients.
